

NO PUBLIC TRANSPARENCY / TRUST-ME MODEL · SCRIPT B

Publish it or pull it down

About 1.7 min at ~140 words/min · 242 words · Replace [Your Name]. Speak calmly. One speaker, one focus.

Tip: swap bracketed fields. Cite numbers carefully. End with the cancel / yearly-vote ask.

Mayor Crawford, members of City Council. My name is [Your Name], and I live in Crossville.

Secrecy is not something residents voted for.

A responsible program would publish a camera map, written rules on when searches are allowed, supervisor approval rules, a partner list for sharing and National Lookup enrollment, and monthly totals. Crossville has not put that package in front of the public. Calling these cameras "extra eyes" is not a substitute for documents.

When cities hide the basics, the message is that oversight is optional. That is how misuse happens elsewhere, and how liability lands on taxpayers later.

I am not asking for a press release. I am asking for documents the public can check. Government that says "trust me, bro" is how we got here. If the program is as carefully limited as supporters claim, publishing should be painless. The longer the city refuses basic disclosure, the stronger the case against keeping this system. Open records are not optional when the city logs where people drive without a warrant.

THE ASK (say this)

My ask is clear. Cancel Crossville's Flock contract and remove the cameras. Require a public hearing and a recorded City Council vote before any surveillance equipment is ever proposed again. If you will not cancel yet, take a recorded yes-or-no vote each year before any renewal, with no automatic renewal that skips a public vote, and publish monthly use reports the public can check. Thank you. I yield.
